## Processor, memory, and disk space

- At least 2 GHz (2 GHz recommended) Intel® Core2 Duo (or equivalent) processor
- At least 2GB (4GB recommended) of RAM
- 1GB Hard Disk space required to install the application. Additional space required for data files and images
- Windows XP SP3 or Higher (Windows 7 or higher recommended)
- Monitor set to a minimum resolution of 1024x768 (1366 x768 Or Higher recommended)

## Integration/compatibility requirements

Furniture Wizard is compatible with the following products, which are each sold separately.

If you plan to use features that integrate with Microsoft® Word or Microsoft® Excel (such as writing letters or exporting reports), you need Microsoft® Word 2003-2013 or Microsoft® Excel 2003-2013. (More RAM enhances the use of these features.)

If you want to export to QuickBooks Accounting software, you need:

- Quickbooks Pro or Premier, 2002 thru 2014

## Server-Based/Multi-Location installation requirements

Furniture Wizard is capable of running in a Remote Desktop Services(Terminal Services) environment in order to support multiple locations.

Server requirements are as follows:

- Windows Server running Windows 2003 SP2 or higher (2008R2 or higher recommended) Supported editions are Foundation*, Standard, Enterprise, and Datacenter editions** Xeon Processor (From 2010 or Higher)
- Minimum of 8GB Ram
- 2GB Hard Disk space required to install the application. Additional space required for data files and images

* Windows Server Foundation is recommended as a low-cost solution for stores that do not expect to have more than 15 users at any given time. Due to technical restrictions, more users cannot be added.

**Due to Microsoft Restrictions, Windows Small Business Server and Windows Server Essentials is not eligible to be used as a remote desktop server.
